

-Main machine groups

Tailor-made to your requirements: At **HYDRORESA S.L.**, **BAUFOR** washing machines, it would be difficult to find two machines the same. Our customers require tailor-made solutions for each of their parts to be cleaned. Each project is a new challenge for our organisation. Whether large or small parts, continuous, step-by-step or static operation, it is essential to thoroughly examine the characteristics of each individual case. Only in this way, is it possible to optimise the performance of the new machine. The repeated trust of our customers is also our best guarantee.

Machines for use of all types of products: degreasing agents, alkaline, phosphating agents, passivating agents, descalers etc.
